

Elemental

This unlikely love story was a thrill to watch the entire time. Watching these two Elements working hard to not only save the town from a flood but also keeping their love as strong and as possible, really touched my heart. Ember and Wade for life!

Saw X

Release date: 9/29/23

Rating: 8.9/10

I consider this my favorite movie from 2023. Spider-Verse is the best movie this year, but Saw X really stood out for me. It reminded me why I am such a fan of this franchise. Great characters, interesting storylines, and very bloody yet clever kill scenes.

Jigsaw is back, and he wants to play a game. His most personal game yet.

"This is not retribution. Its a reawakening" - Jigsaw

"Everyone keeps telling me how my story is supposed to go. Nah. I'm-a do my own thing." -- Miles Morales

Across the Spider-Verse

Release Date: 6/2/23

Rating: 9.5/10

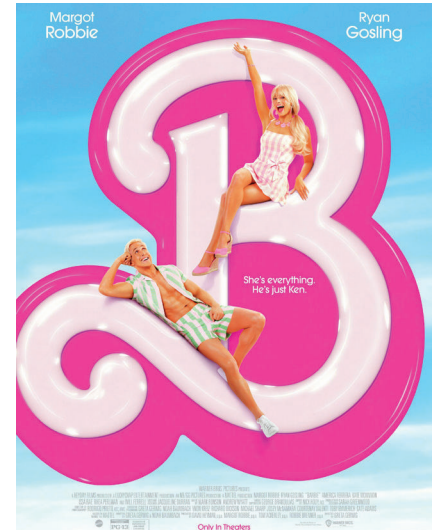

Into the Spider-Verse was amazing, but Across the Spider-Verse made it look mediocre. This was such a fantastic film in every way. The animation was beautiful and the storyline holds onto you and never lets go, which is why I am desperate to see the next film after that cliffhanger ending.

Barbie

Release date: 7/21/23

Rating: 8.7/10

The movie certainly has funny moments, but what also stands out is the messages on how society treats women, and how the Barbie dolls show it. Seeing Mattel admit their mistakes and controversies really is a breath of fresh air and they made up for it with this really entertaining movie. My name is Marvin, and I am Kenough!

Mario Bros.

Release date: 4/5/23

Rating: 7.7/10

The plot of this film was not original, but as a huge fan of the Mario games, it is more than enough to make me leave the theater satisfied. The animation was great, the voice acting was brilliant, and all the references to Mario Kart, 2D Mario platformers, and power-ups really put a smile on my face. I am absolutely looking forward to seeing the next Mario film because we all know Nintendo will green-light a sequel in the future.

Lets a go!
